* Total employment sustained by Boeing's presence in Australia in 2016 includes direct and indirect employment combined with employment resulting from the induced spending by Boeing and its suppliers' employees.

** Boeing's supplier spend in Australia includes some Boeing Australia subsidiaries under contract for goods and services to other parts of Boeing. The supplier numbers do not track subsequent sub-supplier spend that could include induced spend from Boeing contracts. Supplier count is based on the number of supplier locations and could include multiple entities of the same company.
